

Application Support Analyst

São Paulo, Brazil

We are OMP, a game changer that optimizes supply chains of the world's leading companies with our very own smart software and services.

Are you passionate about solving complex problems? Do you have the analytical mind and technical skills to get there? And are you eager to communicate your solution to our customers to make their day?

Does this sound like you? Then you could be our new Application Support Analyst. You'll solve customer tickets that come in via your first-line colleagues. As a specialist in a specific area of our planning solution, you address problems that require more technical knowledge
